AGRICULTURAL STATISTICS, IRELAND, 1871.

TO HIS EXCELLENCY JOHN POYNTZ, EARL SPENCER, K.G.,

Ac., Ac., Ac.,

LORD LIEUTENANT-GENERAL AND GENERAL GOVERNOR OF IRELAND.

MAY IT PLEASE YOUR EXCELLENCY,

I had the honour of submitting, on the 29th of July, an Abstract which gave the number of Thoroughbred and other Sires in Ireland in 1864, 1868, and 1871; and on the 2nd of August, a Return of the acreage under Flax in 1870 and 1871, with the number of Scutching Mills in 1870. I now beg to submit General Abstracts showing, by Counties and Provinces, the total area under each description of Crop; also the number of Horses, Cattle, Sheep, and Pigs in 1870 and 1871.

The Emigration from Ireland, during the first seven months of the same years, is also given.

The collection of the Statistics, which commenced on the 1st of June, occupied nearly two months. The Enumerators, of whom upwards of 3,700 were employed, were selected from the Royal Irish Constabulary and Metropolitan Police, and discharged this duty with their usual efficiency. About 600,000 separate holdings were visited by them, and the names of the various parties from whom they obtained the particulars of Tillage and Live Stock for each holding are stated in the Returns.

The Abstracts have been compiled from summaries made by the Enumerators for their respective districts, and will probably differ in some degree from the revised figures which will be hereafter published; but I do not apprehend that any change of importance will be necessary in the numbers now given.

Making a Net Decrease in the area under all Crops of 20,914

It appears from the foregoing summaries that, compared with 1870, wheat shows a decrease of 12,892 acres, oats of 16,079 acres, barley of 20,570 acres, and bere and rye of 261 acres. In beans and pease there is an increase of 225 acres. In green crops, potatoes show an increase of 14,704 acres; whilst turnips exhibit a decrease of 11,897 acres. There is an increase in the extent under meadow and clover of 53,882 acres, and a decrease in flax of 38,027 acres.

RETURNS OF LIVE STOCK.

Live Stock.

It appears from the following Table that the Returns of Live Stock for 1871 when compared with 1870 show an *increase* in the number of Horses of 4,976; of Cattle 173,190; and of Pigs 155,539. Sheep exhibit a *decrease* of 108,163.

Value of
Live Stock

The total estimated value of Horses, Cattle, Sheep, and Pigs this year, is £36,798,763, being an increase of £1,240,988 when compared with 1870, as appears by the following Table:—

ESTIMATED VALUE of LIVE STOCK in IRELAND in each Year from 1861 to 1871, inclusive, calculated according to the rates assumed by the Census Commissioners of 1841, viz.:—For Horses, £8 each; Cattle, £6 10s.; Sheep, 22s.; and Pigs, 25s. each. [These rates have been retained since 1841, in order to facilitate a comparison of the value—one year with another. A per-centage may be added by anyone at pleasure on account of the increased value of live stock since that period.]

Scutching
Mills.

Scutching Mills.—The number of Mills for scutching Flax in each province in 1870, was—In Ulster, 1,409; Leinster, 39; Munster, 39; Connaught, 31; making in all 1,518.

Emigration.—In the first seven months of 1870 the Returns of Emigrants from the several ports of Ireland show that 53,854 persons left this country. In 1871, the number for the same period was 49,155, being a decrease of 4,699 persons in this year. The emigration referred to is given by provinces for 1870 and 1871 at page 20.

Weeds.—On several occasions I have called attention to the injury arising from the unchecked growth of weeds which is, unhappily, so apparent throughout almost every part of the country. On this subject that distinguished agriculturist the late Sir John Sinclair has given the following experiments, which prove the great advantage of carefully weeding cereal crops:—

"1. Seven acres of light gravelly land were fallowed, and sown broadcast with wheat; one acre was measured off, and not a weed was pulled out of it; the other six were carefully weeded. The unweeded acre produced 18 bushels; the six weeded acres 135 bushels, or 22½ per acre, which is 4½ bushels, or ½ more produce in favour of weeding.—2. A six-acre field was sown with barley, in fine tilth, and well manured. The weeding, owing to a great abundance of charlock, cost 12s. per acre. The produce of an unweeded acre was only 13 bushels; of the weeded, 28. Difference in favour of weeding, 15 bushels per acre, besides the land being so much cleaner for succeeding crops.—3. Six acres sown with oats; one acre ploughed but once, and unmanured, produced only 17 bushels. Another six acres ploughed three times, manured, and weeded, produced 37 bushels. This experiment proves that oats require good management, and will pay for it as well as other crops. Ten bushels of the increased produce may be fairly attributed to the weeding, and the other ten to the manure."

Labourers' Dwellings.—It is scarcely possible, both on social and sanitary grounds, to exaggerate the importance of improving the dwellings of the labouring classes; the Legislature has enabled the Treasury to grant loans for this most desirable object through the medium of the Board of Public Works. According to the Census of 1861, the number of *fourth-class houses* in Ireland, each of which had but one room for the entire family of EVERY AGE AND SEX, was 89,374,* and in these were living nearly half a million of persons.

I have the pleasure of stating that the information from which the Abstracts were compiled has been most readily afforded to the Enumerators by all ranks and classes in this country; and I here venture to observe to your Excellency, that intelligence, such as is shown in Ireland by the voluntary assistance given to the Enumerators, presents an example well deserving of imitation in England and Scotland, where it may be stated—I trust without giving any offence—that Agricultural Statistics have as yet made but little satisfactory progress, owing, no doubt, to a want of due consideration of the importance of the subject.

I now beg to repeat my respectful acknowledgments to the landed proprietors, tenant farmers, the clergy of all denominations, and to the public press, for a continuance of the generous and valuable assistance which I have for so many years experienced in connexion with these Statistics.

I have the honour to be

Your Excellency's very faithful servant,

WILLIAM DONNELLY,

General Register Office, Dublin,

Registrar-General.

20th September, 1871.

*The number of fourth-class houses according to the Census of 1871, has not yet been compiled.
